ARTICLE 3 DISTRICT REGULATIONS

SECTION 3.01 Districts

The Township is hereby divided into zones as shown on the official Zoning Map and shall include the following:

- AG Agricultural
- R-1 Single Family Residential Rural
- R-2 Single Family Residential Low Density
- R-3 Single Family Residential Medium Density
- R-4 Single Family Residential
- R-5 Single Family Residential
- R-6 Single Family Residential Attached
- R-M Multiple Family Residential
- R-MH Mobile Home Residential
- OS Office Service
- C-1 Local Business
- C-2 General Business
- C-3 Highway Service
- M-1 Low Intensity Industrial
- M-2 Light Industrial
- M-3 General Industrial
- PUD Planned Unit Development

SECTION 3.02 Map

- A. The boundaries of these zoning districts are shown upon the map attached hereto and made a part of this Ordinance, which said map is designated as the Official Zoning Map of the Township. The Zoning Map shall be maintained and kept on file with the Township Zoning Administrator, and all notations, references, and other information shown thereon are a part of this Ordinance and have the same force and effect as if the said Zoning Map and all such notations, references and other information shown thereon were fully set forth or described herein.
- B. Except where reference on the Official Zoning Map to a street or other designated line by the dimensions shown on said map, the zoning district boundary lines follow lot lines or the center lines of the streets, alleys, railroads, lakes or such line extended and the corporate limits of the Township as they existed at the time of the adoption of this Ordinance. In the case of a freeway or expressway, the zoning district extends to the center of the freeway or expressway. (Amended: Ord. No. 667, 7-10-06)

Updated 6/15/2023

C. Questions concerning the exact location of zoning district boundary lines shall be determined by the Zoning Board of Appeals after recommendation from the Planning Commission, according to rules and regulations which may be adopted by it.

SECTION 3.03 Vacated streets, and other public spaces

When streets or other public spaces within the Township are vacated and the previous right of way becomes part of parcels adjacent to the vacated street, the newly vacated street property shall be deemed to be part of the same zoning district as the property to which it is attached.

SECTION 3.04 District regulations

- A. Every building or structure erected, any use of land, building, or structure, any structural alteration or relocation of an existing building or structure and any enlargement of, or addition to, an existing use of land, building or structure, and any creation or splitting of a lot, occurring after the effective date of this Ordinance shall be subject to all regulations of this Ordinance which are applicable within the zoning district in which such land use, building or structure shall be located.
- B. Uses are permitted by right only if specifically listed as uses permitted by right in the various zoning districts. Accessory uses are permitted as indicated in the various zoning districts, if such uses are clearly incidental to the permitted principal uses. Uses permitted by special use permit are permitted as listed if the required conditions are met. Uses not specifically permitted within a district are prohibited.
- C. A use of land, buildings, or structures not specifically mentioned in the provisions of this Ordinance shall be classified upon appeal by the Zoning Board of Appeals or by request of the Zoning Administrator. In making this determination, this Ordinance shall not interpret a general category (such as general commercial uses) to include a specific use (such as convenience store) if the specific use is listed separately somewhere else under zoning district regulations.
- D. Open space, off-street parking and other similar provisions required in connection with a particular use may not be used at the same time to meet the requirement for a separate use, unless specifically authorized by this Ordinance.

G. Design Standards

Some uses permitted in this district have required design standards as listed in Article 11.

SECTION 3.13 R-MH, Mobile Home Residential

The R-MH, Mobile Home Residential zoning district is to encourage a suitable environment for persons and families that by preference choose to live in a mobile home rather than a conventional single family structure. In keeping with the occupancy characteristics of contemporary mobile homes, the schedule of regulations establishes moderately low density standards and permitted uses that reflect the need of residents in the zoning districts. Development is limited to mobile homes when located in a subdivision designed for that purpose or a mobile home park and recreation facilities, churches, schools and necessary public utility buildings. Some uses permitted in this district are required to comply with specific design standards.

A. Permitted principal uses

Use of any agriculturally or residentially zoned waterfront property for the purpose of providing access to such body of water for non-riparian property owners is prohibited.

F. Area, height, and placement requirements

In accordance with the attached Schedule of Regulations, Section 3.26

G. Design Standards

Some uses permitted in this district have required design standards as listed in Article 11.

SECTION 3.14 OS, Office Service

The OS, Office Service zoning district is designed to provide suitable locations for certain uses, primarily of office or personal service character, which require easy access from major traffic routes and to permit reasonable latitude of use for certain locations on heavily traveled streets on the fringe of, or outside, residential neighborhoods as wells as to provide a transition between residential and less restrictive commercial and/or industrial zoning districts. Some uses permitted in this district are required to comply with specific design standards.

A. Permitted principal uses

The following uses shall be permitted by right, subject to the review and approval by the Zoning Administrator for those uses requiring issuance of a zoning permit and following review and approval by the Planning Commission for those uses requiring site plan approval under the procedures outlined in Article 8, Site Plan Review.

(Ord. No. 833, 10-4-2021)

SECTION 3.15 C-1, Local Business

The C-1, Local Business zoning district is intended to permit retail business and service uses which are needed to serve the nearby residential area. The intent of this zoning district is to encourage the concentration of local business areas in a compatible way at locations mutually advantageous to both customers and merchants. This is done by promoting the clustering of commercial uses at certain strategic locations and avoiding linear commercial development along major streets. The primary entrance to such commercial areas shall be from a major street. Some uses permitted in this district are required to comply with specific design standards.

A. Permitted principal uses

The following uses shall be permitted by right, subject to the review and approval by the Zoning Administrator for those uses requiring issuance of a zoning permit and following review and approval by the Planning Commission for those uses requiring site plan approval under the procedures outlined in Article 8, Site Plan Review.

(Ord. No. 833, 10-4-2021)

SECTION 3.16 C-2, General Business

The C-2, General Business zoning district is intended to permit a wider range of business and entertainment activities than permitted in the local business zoning district. The permitted uses would serve not only nearby residential areas, but also people further away for types of businesses and services usually found in major shopping centers and central business zoning districts at the juncture of principal streets. These uses would generate larger volumes of vehicular traffic, would need more off-street parking and loading and would require more planning to integrate such zoning districts with adjacent residential areas. Some uses permitted in this district are required to comply with specific design standards.

A. Permitted principal uses

The following uses shall be permitted by right, subject to the review and approval by the Zoning Administrator for those uses requiring issuance of a zoning permit and following review and approval by the Planning Commission for those uses requiring site plan approval under the procedures outlined in Article 8, Site Plan Review.

(Ord. No. 833, 10-4-2021)

SECTION 3.17 C-3, Highway Service

The C-3 Highway Service zoning district is intended to permit more extensive business and entertainment activities than are permitted in the Local and General Business zoning districts. The permitted uses would need more off-street parking and loading and planning to integrate such zoning districts with adjacent residential areas. Businesses may be located along major streets, highways, and at freeway interchanges. Some uses permitted in this district are required to comply with specific design standards.

A. Permitted principal uses

The following uses shall be permitted by right, subject to the review and approval by the Zoning Administrator for those uses requiring issuance of a zoning permit and following review and approval by the Planning Commission for those uses requiring site plan approval under the procedures outlined in Article 8, Site Plan Review.

 - 6. Educational institution, non-profit
 - 7. Fuel distribution facilities (5 acre minimum)
 - 8. Kennels, commercial (7 or more dogs)
 - 9. Outdoor speakers
 - 10. Public utility buildings and uses with outdoor storage
 - 11. Rental and sales of automobiles and recreational vehicles, outdoor
 - 12. Utility grid energy system
 - 13. Uses not listed above, except agricultural uses, but are permitted as a principal use or permitted by special use permit in a less intensive zoning district.

(Amended: Ord. No. 717, 12-21-09; Ord. No. 733, 4-4-11; Ord. No. 739, 9-19-11; Ord. No. 747, 5-7-12; Ord. No. 767, 7-21-14, Ord. No. 808, 5-20-2019)

D. Uses permitted by administratively approved special use permits

The following uses are permitted subject to administrative approval outline in Section 9.11 of this Ordinance.

- 1. Communication antennae
- 2. Communication towers
- 3. Temporary buildings
- 4. Temporary outdoor uses
- E. Area, height, and placement requirements

In accordance with the attached Schedule of Regulations, Section 3.26

F. Design Standards

Some uses permitted in this district have required design standards as listed in Article 11.

G. Prohibited Uses

Use of any non-residentially zoned property for the purpose of primary caregiver operations under the Michigan Medical Marihuana Act of 2008 is prohibited.

(Ord. No. 833, 10-4-2021)

SECTION 3.20 M-3 General Industrial

The M-3 General Industrial zoning district is intended to permit certain industrial uses to locate in appropriate areas of the Township. These uses are primarily of a manufacturing, assembling, and that fabricating character, and include large scale or specialized industrial operations that require good access by road and/or railroad, and that require special sites or public and utility services. Reasonable regulations apply to uses in this zoning district, so as to permit the location of industries which will not cause adverse effects on residential and commercial areas in the Township. Uses which are incompatible with the permitted industrial uses are prohibited. Some uses permitted in this district are required to comply with specific design standards.

A. Permitted principal uses

- 1. Ambulance stations, private
- 2. Animal shelter
- 3. Automotive repair facilities
- 4. Automobile wash establishments
- 5. Bakeries, non-retail
- 6. Crematories
- 7. Fabrication
- 8. Industrial service establishments, heavy
- 9. Industrial service establishments, light
- 10. Industrial service establishments, low intensity
- 11. Landscape contractor
- 12. Light Fabrication
- 13. Manufacturing establishments, heavy
- 14. Manufacturing establishments, light
- 15. Manufacturing establishments, low intensity
- 16. Public utility buildings and uses with outdoor storage
- 17. Public utility buildings and uses without outdoor storage
- 18. Railroad switching, storage, siding and freight yards
- 19. Towing service (with or without outdoor storage)
- 20. Truck terminal
- 21. Wholesale and warehousing

(Amended: Ord. No. 684, 7-23-07; Ord. No. 739, 9-19-11; Ord. No. 750, 9-4-12)

B. Permitted accessory uses

Accessory uses are only permitted if the associated principal use is already established on the lot.

- 1. On-site wind energy system
- 2. Other accessory buildings customarily incidental to the above permitted principal

uses

3. Other accessory uses customarily incidental to the above permitted principal uses (Amended: Ord. No. 717, 12-21-09)

- C. Uses permitted by special use permit
 - 1. Airports, commercial
 - 2. Automobile wrecking yards and junk yards (10 acre minimum)
 - 3. Contractor's establishment without outdoor storage
 - 4. Contractor's establishment with outdoor storage
 - 5. Educational institution, non-profit
 - 6. Fuel distribution facilities (5 acre minimum)
 - 7. Manufacturing, storage and/or distribution facilities (dangerous chemicals)
 - 8. Outdoor speakers
 - 9. Utility grid energy system
 - 10. Uses not listed above, except agricultural uses, but are permitted as a principal use or permitted by special use permit in a less intensive zoning district.

(Amended: Ord. No. 717, 12-21-09; Ord. No. 747, 5-7-12, Ord. No. 808, 5-20-2019)

D. Uses permitted by administratively approved special use permits

The following uses are permitted subject to administrative approval outline in Section 9.11 of this Ordinance.

- 1. Communication antennae
- 2. Communication towers
- 3. Temporary buildings
- 4. Temporary outdoor uses
- E. Area, height, and placement requirements

In accordance with the attached Schedule of Regulations, Section 3.26

F. Design Standards

Some uses permitted in this district have required design standards as listed in Article 11.

G. Prohibited Uses

Use of any non-residentially zoned property for the purpose of primary caregiver operations under the Michigan Medical Marihuana Act of 2008 is prohibited.

(Ord. No. 833, 10-4-2021)

SECTION 3.21 Planned Unit Development (PUD)

The Planned Unit Development zoning district is designed to provide a framework within which a developer, upon his initiation, can relate the type, design and layout of residential and/or commercial uses to a particular site and particular demand for housing and/or other local commercial facilities in a manner consistent with the preservation of property values within established residential areas. The section also provides an added degree of flexibility in the building design and land use arrangement so that a mixture of housing units and provision of common open space can be provided. The zoning district is intended to accommodate developments with mixed or varied uses, on sites with unusual topography or unique settings within the community, or on land which exhibits difficulty or costly development problems or sites that contain natural features such as wetlands, farmland or woodlots that are important for the Township to retain in order to protect it's character and shall not be allowed where this zoning classification is sought primarily to avoid the imposition of standards and requirements of other zoning classifications rather than to achieve the stated purposes herein set forth. The Township Board does hereby determine that the following regulations are the minimum requirements for the promotion and protection of the public health, safety and welfare. Some uses permitted in this district are required to comply with specific design standards.

A. Permitted principal uses

All permitted principal uses by right or by special use permit as identified in the Table of Uses (Table 3–3) shall be permitted in the PUD district. In addition, the following uses shall be permitted only in the PUD district.

- 1. Residential, aviation development
- 2. Residential, equestrian development (5 acre minimum for first horse and 1 acre for each horse over one)

In PUD's approved solely for agricultural or residential uses, the use of waterfront property for the purpose of providing access to such body of water for non-riparian property owners is prohibited, with the exception of the redevelopment of commercial properties existing as of the effective date of the amendment to this section (11-10-03). The Township Board may allow the use of the water body by adjacent residential nonriparians as part of such PUD redevelopment, provided that the result of the redevelopment decreases the total number of boat slips permitted by the Department of Environmental Quality, as of the effective date of the amendment to this section (11-10-03), by at least 50%, and all launch sites are removed. In approving the PUD, the Township Board may permit retention of more than 50% of the existing slips, not to exceed 5, provided they determine the proposed improvements will result in a proper and safe use of water resources in the Township and will maintain the physical, ecological, cultural and aesthetic characteristics of the lake, preserve and protect the quality and safety of the lake and shoreline and rights of riparian owners and users as well as the Township as a whole, and promote the public health,

safety and welfare of all persons making use of the lake and properties adjacent to the lake.

B. Standards for approval

Based upon the following standards, the Planning Commission may recommend denial, approval, or approval with conditions, and the Township Board may deny, approve, or approve with conditions the proposed planned unit development.

- 1. Off-street parking shall be sufficient to meet the minimum required by the ordinances of the Township. However, if it is deemed necessary in order to achieve the purposes of this section, the Planning Commission may relax parking requirements during site plan review.
- 2. All streets within the planned unit development shall meet the minimum requirements of the Township Subdivision Control Ordinance, unless modified by the Planning Commission.
- 3. Landscaping shall be provided so as to ensure that proposed uses will be adequately buffered from one another and from surrounding public and private property. However, if it is deemed necessary in order to achieve the purposes of this Ordinance, the Planning Commission may relax landscaping requirements as part of site plan review.
- 4. Judicious effort shall be used to ensure the preservation of the integrity of the land and the preservation of natural, historical, and architectural features.
- 5. Surface water shall be retained on the site unless the applicant can demonstrate that to do so would be harmful to the environment, or is not practical. In any case, storm water shall not flow off the site at a rate greater than the rate of flow prior to development and storm water shall not be directly discharged into a lake.
- 6. The site shall have adequate lateral support so as to ensure that there will be no erosion of soil or other material. The final determination as to adequacy of, or need for, lateral support shall be made by the Township Building Inspector and/or Township Engineer.
- 7. The proposed density of the planned unit development shall be no greater than that which would be required for each of the component uses of the development in the zoning district in which it is permitted. However, if it is deemed necessary in order to achieve the purposes of the section, the Township Board may permit increased density in return for increased open space. Non-contiguous property may not be used in calculating open space and under no circumstance shall the open space be located on non-contiguous property.
- C. Traffic and accessory conditions

The following regulations concerning traffic and accessory conditions shall be followed:

- 1. Safe, convenient, uncongested, and well defined vehicular and pedestrian circulation within and to the zoning district shall be provided.
- 2. Drives and streets shall not be laid out to encourage outside traffic to traverse the development nor to create unnecessary fragmentation of the development into small blocks.
- 3. No material impediment to the visibility of automotive traffic, cyclists or pedestrians shall be created or maintained.
- D. Approval procedure
 - 1. The PUD zoning approval shall follow procedural requirements of Section 14 of this ordinance for amending the zoning ordinance. The Planning Commission shall hold a public hearing. The Planning Commission shall review the conceptual PUD development plan as described in subsection 3.21E to determine its suitability for inclusion in the land use and zoning plans of the Township and adoption by Township Board as part of the ordinance.
 - 2. The Planning Commission shall then submit the proposed amendatory ordinance to the Township Board together with their recommendation and a summary of comments received at the public hearing.
 - 3. The Township Board, prior to the first reading of the amendatory ordinance, shall hold a public hearing meeting the notice requirements for a special use permit outlined in Article 9 of this Ordinance. Following that public hearing, it may amend or place additional conditions on the zoning ordinance amendment. The adoption of the ordinance or denial of the rezoning request will take place at the second reading conducted by the Township Board.
 - 4. PUD site plan approval procedure may commence only after the acceptance by the Township Board of the conceptual PUD development plan and the rezoning of the property as required.
 - 5. PUD site plan approval process shall follow the procedures for site plan approval outline in Article 8.
- E. Conceptual PUD development plan requirements
 - 1. The applicant for preliminary phase approval of a PUD conceptual plan shall submit sufficient copies of the following technical or graphic materials together with such fees as may be required.
 - 2. The PUD conceptual plan shall indicate the entire contiguous holding of the petitioner or owner who wishes to develop the entire parcel or any part thereof, and shall include the area and use of land adjacent to the parcel to be developed. The plan shall exhibit any unusual problems of topography, utility service, land usage or land ownership. The plan shall also exhibit all existing and proposed structures, existing and proposed streets, open spaces and other features as required by ordinance or regulation.

- 3. The conceptual plan shall show all proposed uses and allotted spaces, gross site area, street and vehicular access areas, number of each variety of habitable space, total number of dwelling units and total open space. The plan shall:
 - a. Define the location of the areas to be devoted to particular uses.
 - b. State the acreage to be devoted to the particular uses.
 - c. Set forth the proposed density of the dwelling units by use type and of the entire project.
 - d. Show the location of parks, open recreation areas, other open space and all public and community uses.
 - e. The applicant shall present material as to the development's objectives and purposes to be served; conformity to plans and policies of the Township; market needs; impact on public schools, utilities, and circulation facilities; impact on natural resources; and a staging plan showing the general time schedule of the expected completion dates of the various elements of the plan.
 - f. Any additional graphics or written materials reasonably requested by Planning Commission or Township Board to assist the Township in visualizing and understanding the proposal shall be submitted.
 - g. Upon submission of all required materials and fees, the Planning Commission shall follow the procedures for review of a zoning amendment as outlined in subsection 3.21D.

(Amended: Ord. No. 669; 7-24-06)

F. Site plan approval

Following approval of the conceptual plan by the Township Board, the applicant may submit site plans for phases of the approved conceptual PUD development plan. The site plans shall conform with the approved conceptual plan. The site plans shall be reviewed and approved by the Planning Commission following the procedures outlined in Article 8.

G. Deviations from approved PUD site plan

Deviations from the approved plan may occur only under the following circumstances:

Minor changes to a previously approved PUD site plan may be approved without the necessity of Planning Commission or Township Board action if the Zoning Administrator certifies in writing that the proposed revision does not alter the basic design nor any specified conditions of the plan as agreed upon by the Planning Commission and the Township Board. Any other change will require approval following the procedures outlined above for the original approval. Appeal of the Zoning Administrators decision regarding the need for formal review by the Planning Commission and Township Board is appealable to the Zoning Board of Appeals

Any deviation from the approved PUD site plan, except as authorized shall be considered a violation of this section and shall be a misdemeanor punished as prescribed herein. Further, any such deviation shall result in the PUD zoning district reverting to its previous zoning.

H. Design Standards

Some uses permitted in this district have required design standards as listed in Article 11.

SECTION 3.22 Wellhead Protection Overlay Zone

Fenton Charter Township has determined that the groundwater underlying the township is the sole source of drinking water for the township residents as well as the residents of the City of Fenton; groundwater aquifers are integrally connected with, and flow into, the surface water, lakes, and streams which constitute significant public health, recreational and economic resources of the township and the city; and spills and discharges of petroleum products, sewage and other hazardous substances threaten the quality of the groundwater supplies and other water related resources, posing potential public health and safety hazards and threatening economic losses. Therefore, Fenton Charter Township has established this overly zoning district to preserve and maintain existing and potential groundwater supplies, aquifers, and groundwater recharge areas of the township and the city, and protect them from adverse development or land use practices, preserve and protect present and potential sources of drinking water supply for public health and safety; conserve the natural resources of the township and the city; protect the financial investment of the city in its drinking water supply and to meet state requirements for wellhead protection and assure that state regulations which help protect groundwater are implemented consistently when new or expanded development proposals are reviewed.

- A. Applicability
 - 1. The Wellhead Protection Overlay Zone shall overlay existing zoning districts delineated on the official Zoning Map of the township as shown in that map.
 - 2. It shall be the responsibility of any person owning real property and/or owning and operating a business within the township to make a determination of the applicability of this Section as it applies to the property and/or business under his or her ownership or operation. Failure to ascertain the applicability or requirements of this Section shall not excuse any violations of this Section.
- B. Use Regulations

Permitted land uses in the Wellhead Protection Overlay Zone include all those permitted uses as allowed in the underlying zoning district, except for the following:

- 1. Petroleum product manufacturing, processing or refining, gasification, recycling, or other derivative activities (including coal).
- 2. Commercial salvage yards and/or scrap processing.
- 3. Oil and gas drilling, including oil or gas drilling contractors or operations.

- 4. Vehicle maintenance services, including public and private garages.
- 5. Chemical and paint manufacturing operations.
- 6. Laundry and dry cleaner operations.
- 7. Electronic equipment manufacturing operations.
- 8. Electro-plating and chemical coating operations.
- 9. Recycling operations involving any of the base processes described above.
- 10. Other similar uses utilizing chemicals on a commercial or industrial basis.
- C. General Provisions

These provisions shall apply to all properties within the Wellhead Protection Overlay Zone, including private, commercial, industrial, residential and public properties, which use, store or generate hazardous substances, as defined in State or Federal law, in quantities greater than one hundred (100) kilograms (approximately two hundred and twenty (220) pounds or twenty-five (25) gallons) per month, and which require site plan review under provisions of the Fenton Charter Township Zoning Ordinance. The General Provisions apply to entire property parcels, providing parcel is at least partially included in the Wellhead Protection Overlay Zone.

- 1. Groundwater Protection Standards
 - a. A use, development, or project and any related improvements shall be designed to protect the natural environment, including lakes, ponds, streams, wetlands, floodplains and groundwater, and to ensure the absence of an impairment, pollution, and/or destruction of water, natural resources, and the public trust therein.
 - b. Storm water management and drainage facilities shall be designed to promote and continue the natural retention and storage capability of any wetland, water body, or watercourse, and shall not increase flooding or the potential for environmental contamination, on-site or off-site, and shall not result in loss of the use of property by any third party or adjacent property.
 - c. Industrial facilities with a point source discharge of storm water shall maintain a Storm Water Pollution Prevention Plan in accordance with applicable State and Federal regulations.
 - d. General purpose floor drains shall be connected to a public sewer system, an on-site holding tank, or a system authorized through a State surface or groundwater discharge permit. If connected to the public sewer system, the volumes and concentrations of waste discharged to a floor drain shall comply with the township's pretreatment requirements.
 - e. Sites that at any time use, store or generate substances in quantities greater than one hundred (100) kilograms that include hazardous substances shall be designed to prevent spills and unpermitted discharges to air, surface of the ground, groundwater, lakes, streams, rivers or wetlands.
 - f. State and Federal agency requirements for storage, spill prevention, record keeping, emergency response, transport and disposal of hazardous substances and polluting materials shall be met. No discharges to groundwater, including direct and indirect discharges, shall be allowed without applicable permits and approvals.
 - g. Bulk storage of pesticides shall be in accordance with applicable County, State and Federal regulations.

- 2. Above Ground Storage and Use Areas for Hazardous Substances.
 - a. Primary containment of hazardous substances shall be product tight.
 - b. Secondary containment shall be sufficient to store the substance for the maximum anticipated period of time necessary for the recovery of any released substance. Products held in containers with a volume of less than forty (40) gallons and packaged for retail use shall be exempt from this subsection b.
 - c. Outdoor storage of hazardous substances shall be prohibited except in product-tight containers that are protected from weather, leakage, accidental damage and vandalism, including an allowance for the expected accumulation of precipitation.
 - d. Accessory buildings, storage rooms, sheds and pole barns that are utilized as secondary containment shall not have floor drains that outlet to soil, a public or private sewer system, groundwater, or nearby drains or natural water bodies unless a surface or groundwater discharge permit has been obtained pursuant to applicable County, State and Federal regulation.
 - e. Areas and facilities for loading and unloading of hazardous substances as well as areas where such materials are handled and stored, shall be designed and constructed to prevent unpermitted discharges to floor drains, rivers, lakes, wetlands, groundwater, or soils.
- 3. Underground Storage Tank Systems
 - a. Existing and new underground storage tanks shall be registered with the authorized State agency in accordance with applicable requirements of the U.S. Environmental Protection Agency (EPA) and the Michigan Department of Environmental Quality (MDEQ).
 - b. Installation, operation, maintenance, closure, and removal of underground storage tanks shall be in accordance with applicable requirements of MDEQ. Leak detection, secondary containment, corrosion protection, spill prevention and overfill protection requirements shall be met.
- 4. Well Abandonment. The owner of a parcel of land within the Wellhead Protection Overlay Zone shall determine whether or not any wells exist on the property, and, if wells do exist, they must be properly abandoned in accordance with applicable State requirements.
- 5. Well Construction
 - a. Well drilling, construction and installation shall only be performed by State of Michigan Registered Well Drillers.
 - b. Well construction shall be completed in accordance with Part 127 of Act 368 of the Public Acts of 1978, as amended, and any rules adopted pursuant to that Act.
 - c. Well construction shall include fully grouting the entire length of the well casing in accordance with Part 127 of Act 368 of the Public Acts of 1978, as amended, and any rules adopted pursuant to that Act.
- 6. Sites with Contaminated Soils and/or Groundwater
 - a. Site plans shall take into consideration the location and extent of any contaminated soils and/or groundwater on the site, and the need to protect public health and environment.

- b. Information must be provided regarding the type, concentration and extent of identified contamination, land use deed restrictions and any remedial action plans.
- c. Excavation, drilling, direct-push and other earth penetration shall be sealed with grout, or with soil material exhibiting lower hydraulic permeability than the native soil.
- 7. Construction Standards
 - a. A general contractor, or if none, the property owner, shall be responsible for assuring that each contractor or subcontractor evaluates each site before any construction is initiated to determine if any site conditions may pose particular problems for handling any hazardous substances. For example, handling hazardous substances in proximity to water bodies or wetlands may be improper.
 - b. Hazardous substances stored on a construction site during the construction process, shall be stored in a location and manner designed to prevent spills and unpermitted discharges to air, surface of the ground, groundwater, lakes, streams, rivers, or wetlands. Any storage container with a volume of over forty (40) gallons that contains hazardous substances shall have secondary containment.
 - c. If a contractor stores or handles hazardous substances that require a Material Safety Data Sheet (MSDS), the contractor shall familiarize him/herself with the sheet, and shall be familiar with procedures required to contain and clean up any releases of any hazardous substance.
 - d. Upon completion of construction, all hazardous substances and containment systems no longer used or not needed in the operation of the facility shall be removed from the construction site by the responsible contractor and shall be disposed of, recycled, or re-used in a proper manner as prescribed by applicable State and Federal law or regulations. Excavation, drilling, direct-push and other earth penetration shall be sealed with grout, or with soil material exhibiting lower hydraulic permeability than the native soil.
- 8. Maintenance

In areas where hazardous substances are handled, structural integrity of any building, containment facility, or storage must be maintained to avoid inadvertent discharge of hazardous substances to soil and groundwater. Cracks and holes in floors, foundations and walls must be repaired in areas where hazardous substances are handled or stored.

- D. Review Requirements
 - 1. Specify location and size of interior and exterior area(s) and structure(s) to be used for on-site storage, use, load/unloading, recycling, or disposal of hazardous materials.
 - 2. Specify location of all underground and aboveground storage tanks for such uses as fuel storage, waste oil holding tanks, hazardous materials storage, collection of contaminated stormwater or wash water, and all similar uses.
 - 3. Specify location of existing and proposed wells.
 - 4. Specify location of exterior drains, dry wells, catch basins, retention/detention areas, sumps, and other facilities designed to collect, store or transport stormwater or wastewater. The point of discharge for all drains and pipes shall be specified on the site plan.

- 5. Specify areas on the site that the applicant has reason to believe are contaminated, together with a report on the status of site cleanup, if applicable.
- 6. Submit "Hazardous Materials Reporting Form for Site Plan Review".
- 7. Refer to Article * Site Plan Review, Section 8.03 Required Information for additional requirements.
- F. Exemptions and Waivers
 - 1. Transport of Hazardous Substances

The transportation of any hazardous substance shall be exempt from the provisions of this ordinance provided the transporting motor vehicle or rail is in continuous transit, or that it is transporting substances to or from a State licensed hazardous waste treatment, storage, or disposal facility.

2. Waiver of Prohibited Use

The Planning Commission may permit a use otherwise prohibited in Section 3.22 B following the process for approval of a Special Use Permit in Article 9 of this ordinance if it finds by written decision that the proposed use:

- a. Meets the intent of this section as well as its specific criteria;
- b. Will not, during construction or thereafter, have an adverse impact on any aquifer or recharge area in the district;
- c. Will not adversely affect an existing or potential domestic or municipal water supply; and is consistent with existing and probable future development of surrounding areas.

Section 3.27 Footnotes

- a. In all residential zoning districts, the required front yard setback shall not be used for off-street parking and shall remain as open space unoccupied and unobstructed from the ground upward except for landscaping, plant materials or vehicle access drives. All yards abutting upon a public or private street shall be considered as front yards for setback.
- b. In all residential zoning districts, the front yard setback shall apply to both lot lines of a corner lot which abut upon a public or private street.
- c. Where two (2) or more multiple, row or terrace dwelling structures are erected on the same lot or parcel, a minimum distance between any two (2) structures shall be thirty (30) feet plus one (1) foot for each ten (10) feet, or part thereof, by which the total length of that portion of the two structures lies opposite each other. (See Figure 3-1)

Figure 3-1

d. The minimum required floor space per dwelling unit in each multiple dwelling structure shall be:

Efficiency apartment	350 square feet
One bedroom apartment	600 square feet
Two bedroom apartment	800 square feet
Three bedroom apartment	1,000 square feet

Plus an additional eighty (80) square feet for each bedroom in excess of three (3) bedrooms in any unit.

- e. In any business zoning district, side yards are not required except as provided below. A side setback of eighty (80) feet shall be required for all buildings and parking and loading areas in any business zoning district where such business zoning district is located adjacent to and adjoining a residential zoning district or where the business zoning district borders a side street. The Planning Commission may reduce the setback to not less than fifty (50) feet at site plan approval. Where a business zoning district is adjacent to and adjoining an industrial zoning district, the side lot setback requirements shall be determined by the Planning Commission at the time of Site Plan approval. The required setback area shall be open and unoccupied from the ground upward except for landscaping and vehicle access drives.
- f. Loading space and parking spaces shall not be located in a required front yard.
- g. Required road frontage may be reduced to sixty five (65) feet in cases of lots fronting on cul-de-sacs and curvilinear streets, provided that the lot meets the required lot width at the required front yard setback line.
- h. For purposes of determining whether a residential development complies with the maximum density requirement and/or whether a parcel meets the minimum requirement for area, (square footage); only usable land area shall be considered. Road rights of way,

wetlands, floodplains or submerged land such as a lake, pond or stream shall be excluded from the land area calculation.

To encourage the preservation of unique natural features and the Township's rural character, a single family condominium development or a single family platted subdivision in an R-3, R-4 or PUD zoning district is eligible to utilize a clustering option to receive a density bonus. The clustering option must include the dedication of a certain percentage of the land as undeveloped open space. The density bonus increase will be equal to the percentage of land dedicated as undeveloped open space (see table 3-2 below). Unbuildable or undevelopable land such as wetlands, floodplains or submerged land such as a lake, pond or river shall not be included when calculating permitted density. Such unbuildable or undevelopable land cannot be counted as dedicated undeveloped open space for purposes of determining the allowable density bonus.

Compliance with the Michigan Land Division Act and/or Condominium Act is required in order to develop lots/units less than 12,000 square feet in area.

- j. The minimum ground level floor area for 1 1/2 story, 2 story and split level homes shall be 800 square feet.
- k. See limitation on structures in rear yards of lots or parcels on lakes in Section 4.28.
- I. Property may be developed using the open space option, provided that the minimum lot size is 1 acre and the minimum lot width complies with the requirements shown in Table 3-1.
- m. The maximum density allowed under these provisions shall only be granted if all other provisions of this Ordinance are met.
- n. Lot Width is defined as the horizontal distance between the side lot lines, measured at the required front yard setback or the actual front yard setback, whichever is less (see figure 2-8). However, no lot shall have less than 65 feet of frontage on a public or approved private road.
- All structures shall also be a minimum of 25' from the edge of a wetland as defined by Act 59 of the Public Acts of 1995, Part 303 of the NREPA.
